

Setup

Software required

- Oculus SDK
- Leap Motion Orion (v3)
 - Using v2.3.* may work but could have undesired effect

Ensure the Leap Motion is mounted to the front of the Rift and connected.
Avoid plugging the Leap Motion into the USB port on the Rift as this can reduce effectiveness of the Leap Motion.

Task List

Task 1

Survey

https://docs.google.com/forms/d/16_0R1OFbBclhg0iCEAp7wdE-IEcNTu7JvhP0uxshB70/viewform

Participant Task

Please complete the first section of the survey, "Participant Information", before proceeding.

Task 2

Setup

Load up the game with the Rift and Leap setup and connected.
Have the participant sitting at the computer.

Participant Task

Reach one of the branches.
This can be identified as a room with servers in or a vending machine.

Survey

Complete the "Task 1" section of the survey

Task 3

Setup

Restart the story

Participant Task

If you have not yet interacted with the world, please do so.
Interacting with the world is identified as touching the unusual texture on the wall just outside the starting room.
If you have interacted with the world, proceed onto the survey.

Survey

Complete the "Task 2" section of the survey
